

Why C14P ?

Higher quality flames fitted with high calibre valves. One size fits all commercial & industrial use.

Effective: Enhanced speed flow rates compared to everyday household cylinders, resulting in increased pressure and higher quality flames.

Premium quality valves: High resilience towards cylinder leakages, resulting in a much safer environment.

Portable: Perfect business partner for your growing business. One size fits all usage.

SME Compatibility: The C14P serves a wide array of commercial & industrial needs at your neighbourhood businesses.
